

# The University of Connecticut Climate Action Plan:

*Guiding the Path toward Carbon Neutrality*

## Table of Contents

---

<b>Section 1: The UConn Climate Action Planning Process.....</b>	<b>1-14</b>
<b>The University of Connecticut .....</b>	<b>3</b>
<b>The American College and University Presidents Climate Commitment.....</b>	<b>3</b>
Why Did We Sign the PCC? .....	3
A Proven Track Record in Environmental Sustainability .....	3
Looking Towards the Future .....	6
<b>Organizational Structure.....</b>	<b>6</b>
Environmental Policy Advisory Council .....	6
Environmental Policy Statement .....	6
Climate Action Task Force .....	7
CATF Workgroups .....	8
Climate Action Plan Project Manager.....	9
<b>Developing the Climate Action Plan .....</b>	<b>9</b>
<b>UConn Climate Action Plan .....</b>	<b>10</b>
CAP Overview .....	10
Emissions Reduction Goal & Interim Milestones.....	10
CAP Implementation & Timeline .....	11
<b>One Final Note .....</b>	<b>13</b>
<b>References .....</b>	<b>14</b>
<b>Section 2: Greenhouse Gas Inventory .....</b>	<b>15-47</b>
<b>Executive Summary .....</b>	<b>18</b>
2007 Inventory Results.....	18
Future Inventories.....	18
<b>Inventory Boundaries.....</b>	<b>21</b>
Temporal Boundaries .....	21
Organizational Boundaries.....	21

Operational Boundaries .....	22
<b>Institutional Data .....</b>	<b>24</b>
<b>Projected Campus Growth .....</b>	<b>25</b>
Building Growth .....	26
Student Enrollment.....	26
<b>Scope 1 Emissions .....</b>	<b>28</b>
Cogeneration Facility .....	28
Other Stationary Sources.....	29
On-Campus Vehicle Fleet.....	30
<i>Hybrid-Electric &amp; Electric Vehicles .....</i>	<i>30</i>
<i>Campus Bus &amp; Shuttle System .....</i>	<i>31</i>
<i>Biodiesel Production &amp; Use.....</i>	<i>31</i>
<i>Bicycling &amp; Walking .....</i>	<i>31</i>
Refrigerants & Chemicals .....	32
<i>Refrigerants.....</i>	<i>32</i>
<i>Green Cleaning.....</i>	<i>33</i>
Agricultural Emissions: Fertilizer Applications & Animal Husbandry.....	33
<b>Scope 2 Emissions .....</b>	<b>34</b>
Purchased Electricity .....	35
<b>Scope 3 Emissions .....</b>	<b>36</b>
Solid Waste Disposal .....	36
Wastewater Treatment .....	37
Student, Faculty & Staff Commuting.....	38
Off-Campus Travel.....	39
<i>Study Abroad .....</i>	<i>39</i>
<i>Directly-Financed Off-Campus Travel.....</i>	<i>39</i>
<b>Offsets &amp; Sequestration Activities .....</b>	<b>40</b>
Forest Management .....	40
Composting.....	42
<i>Floriculture Greenhouse .....</i>	<i>42</i>
<i>Plant Science Farm.....</i>	<i>42</i>
<i>EcoGarden Club &amp; Dining Services .....</i>	<i>43</i>
<i>Proposed Agricultural Waste Composting Facility .....</i>	<i>43</i>
<b>Conclusion.....</b>	<b>43</b>
Understanding Increases in Emissions .....	43
Limitations to the Current Inventory.....	44
Recommendations for Future Improvement.....	45
<b>References .....</b>	<b>47</b>
 <b>Section 3: Emissions Reduction Strategies.....</b>	 <b>48-104</b>
 <b>Executive Summary .....</b>	 <b>53</b>
Emissions Reduction Strategy Evaluation & Selection.....	53

Overview of Proposed Greenhouse Gas Emissions Reduction Strategies .....	53
<i>Energy-Related Strategies</i> .....	53
<i>Sustainable Development-Related Strategies</i> .....	54
<i>Transportation-Related Strategies</i> .....	55
Conclusion.....	55
<b>Energy.....</b>	<b>56</b>
Strategy E.1: Plan for the Future .....	58
<i>E.1.1. Develop a campus Utilities Master Plan</i> .....	58
<i>E.1.2. Ensure energy efficiency through the building design process</i> .....	58
<i>E.1.3. Commit to renewable energy goals for campus energy supply</i> .....	58
Strategy E.2: Reduce Demand .....	59
<i>E.2.1. Establish a program to continuously commission buildings</i> .....	59
<i>E.2.2. Adjust building temperature set points and occupancy schedules</i> .....	59
<i>E.2.3. Establish a lighting update program (interior and exterior)</i> .....	60
<i>E.2.4. Reduce fume hood energy consumption</i> .....	60
<i>E.2.5. Establish an energy-efficient computing policy</i> .....	60
<i>E.2.6. Implement a residence hall appliance policy</i> .....	61
<i>E.2.7. Minimize energy use associated with equipment and appliances</i> .....	61
<i>E.2.8. Identify and improve energy efficiencies associated with campus food             service equipment and appliances</i> .....	61
Strategy E.3: Maximize Efficiency.....	62
<i>E.3.1. Correct inefficiencies in campus utility distribution systems</i> .....	62
<i>E.3.2. Expand and better integrate current energy monitoring efforts</i> .....	62
<i>E.3.3. Promote continuous improvement of operational strategies at the cogeneration             facility</i> .....	63
<i>E.3.4. Centralize utility systems as much as possible and examine opportunities             to integrate building projects to maximize utility system efficiency</i> .....	63
<i>E.3.5. Improve the efficiency of building HVAC systems through heat zoning             and high-efficiency filters</i> .....	63
<i>E.3.6. Develop and initiate a boiler efficiency and emissions reductions program</i> .....	63
<i>E.3.7. Develop and implement an equipment energy efficiency purchasing policy</i> .....	63
Strategy E.4: Substitute Green Technologies for Existing Technologies.....	64
<i>E.4.1. Seek to incorporate alternative energy sources into new constructions and             retrofit existing buildings where appropriate and feasible</i> .....	64
<i>E.4.2. Maximize efficiency of laboratory airflow through new technologies</i> .....	64
<i>E.4.3. Identify and evaluate applications for variable-frequency drives (VFDs)</i> .....	64
<i>E.4.4. Evaluate the feasibility and appropriateness of developing a carbon             neutral power plant</i> .....	64
Strategy E.5: Demonstrate Alternative Technologies.....	65
<i>E.5.1. Develop a renewable energy master plan and implement demonstration projects</i> ..	65
<b>Sustainable Development .....</b>	<b>66</b>
Strategy SD.1: Green the campus building and renovation process. ....	68
<i>SD.1.1. Revise the Sustainable Design and Construction Policy</i> .....	68
<i>SD.1.2. Update the Sustainable Design Guidelines and mandate their use             for projects not required to meet LEED standards</i> .....	69
<i>SD.1.3. Develop a construction materials selection, recycling and reuse guide</i> .....	70
<i>SD.1.4. Seek to achieve zero-carbon buildings</i> .....	70
Strategy SD.2: Manage the campus forest to maximize carbon sequestration.....	70
<i>SD.2.1. Establish a permanent position to oversee the management of             University's forest holdings</i> .....	71
<i>SD.2.2. Inventory the University's forest holdings and establish a plan             to maximize carbon sequestration</i> .....	72

SD.2.3. Develop and implement a management plan to improve and expand the campus urban forest.....	72
SD.2.4. Establish general forest acquisition goals and a 'no net loss' policy.....	72
Strategy SD.3: Refine campus agricultural practices to minimize fuel and chemical inputs, while maximizing sequestration.....	73
SD.3.1. Develop an agricultural and landscaping waste composting system.....	73
SD.3.2. Identify additional opportunities to use agricultural wastes to generate new products .....	75
SD.3.3. Maximize the use of organic, conservation-till agriculture on campus.....	75
SD.3.4. Manage herds to minimize associated emissions.....	75
Strategy SD.4: Minimize the carbon footprint of campus landscaping .....	75
SD.4.1. Develop a campus landscaping master plan designed to minimize chemical, energy, and water use associated with campus landscaping .....	76
SD. 4.2. Improve turf quality on campus .....	76
SD.4.3. Maximize recycling of landscaping organic waste .....	77
Strategy SD.5: Embody and implement low impact development (LID) principles .....	77
SD.5.1. Require the use of the LEED for Neighborhood Development Rating System to guide future development decisions.....	78
SD.5.2. Establish a cap on impervious surface .....	78
SD.5.3 Select surface materials that are characterized by a high albedo, high emissivity, and low heat capacity .....	79
SD.5.4. Require integration of green roofs into all new building designs; retrofit existing buildings where possible .....	79
Strategy SD.6: Maximize water conservation and reuse .....	79
SD.6.1. Correct inefficiencies in campus steam utility systems.....	80
SD.6.2. Upgrade water fixtures in campus buildings to maximize efficiency .....	80
SD.6.3. Construct a water reclamation facility.....	81
Strategy SD.7: Increase campus recycling and waste reduction rates .....	81
SD.7.1. Increase campus food waste recycling.....	82
SD.7.2. Establish a green purchasing policy to minimize packaging and other waste associated with campus purchases.....	83
<b>Transportation.....</b>	<b>84</b>
Strategy T.1: Better integrate transportation into campus planning and design decisions.....	87
T.1.1. Develop a modal transportation advisory committee. ....	87
T.1.2. Develop a campus transportation master plan for travel to and from Storrs.....	87
T.1.3. Establish a campus policy that transit be considered when planning new campus buildings .....	87
Strategy T.2: Decrease the campus vehicle fleet annual fuel use .....	87
T.2.1. Establish fleet efficiency purchasing requirements.....	88
T.2.2. Phase out older, inefficient vehicles; replace with higher efficiency vehicles appropriate for the intended use .....	88
T.2.3. Develop and implement a mandatory vehicle efficiency improvement program .....	88
T.2.4. Enforce the state anti-idling policy .....	88
T.2.5. Increase the efficiency of on-campus delivery systems.....	89
T.2.6. Discourage unnecessary on-campus driving.....	89
Strategy T.3: Increase the proportion of renewable fuels used annually .....	89
T.3.1. Increase the production and use of biodiesel in university vehicles.....	89
T.3.2. Increase the use of vehicles that run on carbon-neutral or low-carbon fuel sources .....	90

Strategy T.4: Decrease annual commuter single occupancy vehicle trip frequency and per capita commuter vehicle miles travelled.....	91
T.4.1. Work with campus unions to encourage flexibility in employee workday definition .....	91
T.4.2. Increase access and provide incentives for telecommuting and online courses.....	91
T.4.3. Develop a campus rideshare incentive program.....	91
T.4.4. Establish an on-campus carshare program .....	92
T.4.5. Provide a weekday shuttle service to nearby off-campus park-and-ride lots.....	93
T.4.6. Increase local housing options and availability .....	93
T.4.7. Improve bicycle and pedestrian safety and access from off-campus housing .....	93
T.4.8. Increase bus and shuttle availability to and from off-campus destinations.....	94
T.4.9. Advocate for the development of a regional light rail commuting option.....	96
Strategy T.5: Redesign campus parking to minimize commuter emissions.....	96
T.5.1. Establish a campus parking cap.....	96
T.5.2. Develop an incentive program to discourage parking pass purchases .....	97
T.5.3. Implement a campus-wide parking fee increase; use the revenue to fund improvements and expansions to campus mass transit options.....	97
T.5.4. Price parking according to vehicle fuel efficiency and EPA emissions rating.....	97
T.5.5. Offer a reduced-cost parking pass, priority parking and related emergency support services for rideshare participants .....	97
T.5.6. Develop a reduced-cost parking pass for motorcycles and scooter when registered as the sole vehicle .....	98
Strategy T.6: Increase walking and biking.....	98
T.6.1. Hire a pedestrian and bicycle coordinator to ensure implementation of Master Plan recommendations.....	99
T.6.2. Improve campus bicycle amenities and paths.....	99
T.6.3. Develop a bicycle commuter-incentive program.....	101
T.6.4. Create an affordable on-campus bicycle shop.....	101
T.6.5. Establish a campus-wide bicycle loaner program.....	101
Strategy T.7: Reduce the carbon footprint of off-campus travel.....	101
T.7.1. Require vehicle rental programs to provide efficient and alternative fuel vehicle options.....	102
T.7.2. Negotiate discounted bus and train ticket rates for UConn faculty, staff and students.....	102
T.7.3. Discourage air travel to locations within reasonable driving or train distance .....	102

## **Section 4: Funding.....105-128**

<b>Executive Summary .....</b>	<b>108</b>
<b>Introduction .....</b>	<b>111</b>
Balancing Long-Term Gains with Short-Term Investments .....	111
Don't Forget to Measure Carbon Savings!.....	111
<b>Ensuring Success: Administrative Costs .....</b>	<b>112</b>
<b>Existing &amp; Allocated Funds .....</b>	<b>113</b>
UConn Green Campus Fund.....	113
UConn 2000 & UConn 21 <sup>st</sup> Century.....	113
<b>Potential On-Campus Funding Mechanisms.....</b>	<b>114</b>
Sale of Renewable Energy Credits.....	114
Revolving Loan Fund.....	115

Sale of Excess Power Generation .....	116
Campus Energy Efficiency Incentive Program.....	117
Campus Parking Surcharges .....	118
Self-Sustaining Forestry Program .....	118
Student Utility/ Sustainability Fee.....	119
Student Project & Activity Funding Sources.....	120
Alumni Funding Opportunities.....	121
Voluntary Donation Program .....	122
<b>External Funding Opportunities .....</b>	<b>122</b>
State & Federal Opportunities.....	123
Private Funding Opportunities .....	123
<i>Direct Grant Opportunities.....</i>	123
<i>Performance Contracts &amp; Energy Service Companies (ESCOs).....</i>	123
<i>Third Party Financing Options .....</i>	124
<i>Other On-Campus Partnerships.....</i>	124
Municipal Partnerships.....	125
<i>White Tag Programs .....</i>	125
<b>Related Resources.....</b>	<b>126</b>
<b>References .....</b>	<b>128</b>

# Appendices

---

The American College and University Presidents Climate Commitment (ACUPCC).....	A
2008-2009 UConn CATF Workgroups & Members .....	B
Environmental Sustainability Strategies Recommended for Further Consideration .....	C
UConn Sustainable Design & Construction Policy.....	D
